Single Event & Mass Tort
- ▶ **COST PROJECTIONS**  
Medicare and non-Medicare
- ▶ **MEDICARE SET-ASIDES**  
Workers' Comp and Liability

# LIEN RESOLUTION

## Single Event

We negotiate aggressively with all subrogating health insurers to maximize lien reductions.

We use proprietary state-of-the-art technology that simplifies the case submission process and gives real-time updates.

We dedicate a single point of contact for all of your files, and provide you with on-demand access to our live data portal.

We offer flexible pricing customized to fit every case. There are no upfront costs. There is no fee unless you win.

# LIEN RESOLUTION

## Mass Tort

We negotiate directly with the leadership at the Centers for Medicare and Medicaid Services and various subrogees to create effective lien resolution programs.

We use our relationships with Rawlings, Equian, Conduent, and others to produce efficient, large-scale lien resolution, enabling faster distribution of settlement funds.

We negotiate the most efficient reduction schedules in the industry and have resolved thousands of liens while providing expert lien claims management.

# COST PROJECTIONS

Whether you have an MSA or not, a significant amount of future medical expenses are not properly accounted for in many settlements. We uncover and organize future medical expenses, and provide workers' compensation and liability firms with the accuracy and efficiency needed when determining future medical costs, helping you turn them into revenue.

- ▶ **Full Medical**

Determines all future medical costs, but doesn't separate between Medicare and non-Medicare.

- ▶ **Non-Medicare plus Medicare**

Separates each payment between those that Medicare pays and those they don't.

- ▶ **Non-Medicare**

Calculates what medical costs will be missed by an MSA. Best used as a supplement.

# MEDICARE SET-ASIDES

As laws evolve, there are now more questions than answers as to whether plaintiffs need a Medicare Set-Aside. We review the medical records and provide clear, definitive answers and protect future benefits by ensuring Medicare Secondary Payer Compliance. Our certified nurses provide expert support, timely preparation, and submission to CMS.

- ▶ **Workers' Compensation**

We provide definitive answers and protect your clients' future benefits by ensuring Medicare Secondary Payer Compliance.

- ▶ **Liability**

We provide the expertise attorneys need to protect their clients and navigate the complexities of a liability settlement.
