Build the value of your case by uncovering hidden dollars to increase settlement value and protect your clients' future medical benefits.

Advocacy through expertise: The MASSIVE Advantage

MASSIVE[®]

MEDICAL AND SUBROGATION SPECIALISTS

“The usefulness is simple. An element of damages in PI cases is the cost of future medical. In order to establish the cost, we need to utilize someone with the appropriate background to develop it for us. That is where **MASSIVE** comes in. I take your itemized cost projection and am able to establish what the future medical cost is for settlement purposes instead of guesstimating.”

- **Jonathan Mincieli**, Attorney
Meyers & Flowers

Check out some reviews of MASSIVE's Medical Cost Projections

“The Cost Projections helped us quantify the amount of the MSA and future Non-Medicare costs. We were very prepared to discuss the future value based on your report. When the carrier made their initial offer, we were able to go right back to them with a precise and focused counter, based on the numbers received from **MASSIVE**. Your evaluation was done in a timely manner and included what we needed. We will use your company again in the future and the cost of your product was reasonable.”

- **Michael Zachary**, Attorney
De Cardenas, Freixas, Stein & Zachary
